

UNHANDLED EXCEPTIONS
GAME DEVELOPMENT CONSULTING

SOLVE THE DYSFUNCTION.

A seasoned addition to your game development team's leadership brain trust.

A strategic partner for game development studios. We draw on deep experience shipping AAA titles to drive greater clarity, alignment, and intentional execution.

THE TRACK RECORD

UNCHARTED • THE LAST OF US • CALL OF DUTY

GAME OF THE YEAR

Multiple Game of the Year titles from AAA development leadership.

SHIPS, REPEATEDLY

New IP, new platforms, established brands, and new hardware.

BUILT IN PRODUCTION

Methodologies proven in real-world development, not theory.

THREE WAYS TO WORK TOGETHER

Every engagement is customized to your team's needs. These are the proven starting points.

01

1-5 DAYS

Focused Advisory Sessions

Targeted conversations on a specific challenge, decision, mentoring need, or opportunity.

- Production challenges
- Team dynamics and collaboration
- Organizational design
- Creative alignment
- Leadership effectiveness
- Iterative design best practices

OUTCOME

Practical recommendations for immediate use, in a written report.

02

MULTI-DAY

Studio Deep Dives

A comprehensive look at your studio's opportunities, challenges, and team effectiveness.

- Leadership interviews
- Team observation
- Process evaluation
- Workflow review
- Cross-functional assessment
- Recommendations overview

OUTCOME

Clear findings and a written roadmap tailored to your goals.

03

ONGOING

Team Immersion Partnership

Deep, sustained engagement for leaders working across multiple development areas.

- Multi-discipline alignment
- Gameplay and player fantasy design
- Studio growth and scaling
- Complex organizational challenges
- Long-term improvement initiatives

OUTCOME

Sustained progress, with regular written reporting.

SAMPLE FOCUS AREAS

Design Review

Align player fantasy and gameplay to project goals.

Iteration Loop

Build effectively to find the fun quickly.

Leadership Vision

A thought partner to sharpen your roadmap.

Efficiency Boost

Streamline workflows and org structures.

Comm Channels

Clear communication across disciplines and command.

Most studios don't need more process.
They need greater clarity. Fix the Unhandled Exceptions.
